UPDATED- Comprehensive Presentation

The updated lecture for the Advanced course contains images that are coordinated with the Advanced manual so note taking is not necessary.

UPDATED- 2010 Advanced Manual Included (\$35.00 value)

The 2010 Advanced Manual compliments the "BASIC" course manual, to further expand your periodontal resources. It contains the essential information you need to help you successfully incorporate the ideas and techniques presented in the seminar, into your practice.

Course Objectives

Diagnosis

- To diagnose common oral pathology conditions

New diagnostic techniques and technologies

Controversies

- The facts and fallacies of techniques and products in the professional and public domain: The bottom line!
- To determine the prognosis and treatment sequence

Aggressive Diseases

- Etiology, diagnosis and treatment of Aggressive Periodontitis affecting children, adolescents and young adults

Multidisciplinary Treatment Planning

- To integrate Periodontics, Restorative & Implant Dentistry

Resective and Regenerative Therapy

- Resective soft and hard tissue surgical techniques
- Mucogingival & aesthetic surgical techniques
- About regenerative periodontal surgery including osseous grafts, Guided Tissue Regeneration and Guided Bone Regeneration.
... and much more!

You should take this course:

- To recognize and treat periodontal patients to meet today's high standard of care
- To be up to date on new and emerging periodontal technologies and techniques
- To improve your "bottom line" while simultaneously establishing a standard of excellence
- To experience greater patient and personal gratification

Basic and Advanced Seminars for Periodontics

The Basic and Advanced courses are ideally taken in sequence. Participants are encouraged to take the BASIC course first, to gain maximum benefit.

Mission Statement

Many patients have periodontal disease that is insufficiently treated. By upgrading our knowledge, skills and standards in periodontal care, the patients, General Dentist, Dental Hygienist and Periodontist all benefit. It is for this reason that I have made a commitment to periodontal education and a promise not to hold back any information.

Dr. Arlin maintains a full-time private practice in Toronto, Ontario limited to Periodontics and Implant Dentistry.

Dr. Murray Arlin D.D.S., dip. Perio. F.R.C.D.(C)

Dr. Arlin received his D.D.S. at McGill University, Montreal in 1977, his Diploma in Periodontics at the University of Toronto in 1980 and his Fellowship in the Royal College of Dentists of Canada in 1983.

Dr. Arlin has taught at the University of Toronto at the undergraduate and post-graduate levels. He has also presented numerous seminar lectures internationally and has authored many articles in leading Dental Journals. He is past president of both the Ontario Society of Periodontists as well as the Ontario Study Club for Osseointegration (OSCO) and was the chairman for the Canadian Academy of Periontology's full day Perio program. Dr. Arlin is a co-founder of the Toronto Implant Study Club, which is the largest private implant study club in Canada. He is also the founder of the Dental Hygienist Periodontal Study Club of Toronto.
